

*For flexibility in terms of design
and application:*

HAWA-Multifold 30 and 30/W –

*the easy-to-install, smooth-
running folding sliding hard-
ware systems for cupboard
doors with a panel weight of
up to 30 kg (60 lbs).*

Patent pending

Thanks to their amazing versatility, the HAWA-Multifold 30 and 30/W give you plenty of scope for the most varied creations – from miniature cabinets to walk-in cupboards.

Superior technology

HAWA-Multifold 30 – 30/W are our two folding sliding hardware systems that open up all avenues for you with regard to cabinet doors with a panel weight of up to 30 kg (60 lbs). When the doors move they are virtually silent. The versatility of these hardware systems is simply astounding, for the folded panels can be moved freely to and fro or affixed on the side. Their advanced technology is going to take some beating too. They feature a horizontal brush seal which deadens impact noise.

The interior cupboard space is not interfered with in the slightest by any protruding elements. And as if this were not enough, it also boasts yet another Hawa invention: vertical seals which cover the hinges and provide them with allround protection against dust.

Flexible assembly

HAWA-Multifold 30– 30/W gives you absolute freedom when it comes to assembly, thanks to 3 different design options – Vorfront, Mixfront and Infront. The logical construction of the HAWA-Multifold 30 will simplify things for you, whatever you are creating. And what is more, it will save you an enormous amount of time too, as comparisons with other hardware systems have clearly shown.

HAWA-Multifold 30

Standard designs (according to template)

Ingenious down to the last detail

Everything about the HAWA-Multifold 30 is spot on, right down to the locking mechanism. The vertical bar bolt lock that has been carefully designed for the Multifold, and is suitable for standard furniture keys or Kaba 8 cylinders, grips directly onto the top track and bottom guide channel. Its solid construction ensures that the good impression created by a Multifold cupboard is not spoiled by even the tiniest detail.

Variant
(e.g. walk-in cabinet)

Folding package width

For door thicknesses as from 20 mm (3/4")
the edges must be smoothed off.

Folding sliding doors provided on one side with 110° concealed hinges with spring.

15042 for folding panel pairs that are to be
freely moved to and fro
14826 for folding panel pairs that are to be
attached to the side

HAWA-Multifold 30/W

HAWA-Multifold 30/W is an addition to the HAWA-Multifold 30 (Infront and Vorfront) hardware system. It is installed on one side using concealed hinges and does not require a bottom guide. This hardware set may be used on the left or thr right as desired, and is supplied together with an 1100 mm (3'7 1/8") top track.

Construction

Inlay and overlay door constructions are possible.

Unique folding system

With the HAWA-Multifold 30/W it is possible to cover an opening of up to 2 metres in width with a dual-panel folding stack (left and right). Unlike other systems, the folding panels are not suspended with concealed metal strips here, but instead are guided with greater precision by our newly developed and extremely robust concealed press-fit cup. As a result, the folding panels are rendered much more stable. One disadvantage with many systems is that, due to the design of the folding door stack, either a broad section of the cabinet is not directly accessible, or it is necessary to pull on the edge of the door facing the cabinet in order to close it. Hawa has now solved this problem by coming up with a carefully designed folding method.

**Planning/installation
HAWA-Multifold 30/W**

For planning and installation please use the installation instructions code 15567.

HAWA-Multifold 30, sets without profile set

		Maximum panel widths	panel	code
	«Two-panel cabinet/wardrobe» set	500 mm (1'7 ¹¹ / ₁₆ ")	2	15037
	«Exterior type» set (for left and right-hand use)	500 mm (1'7 ¹¹ / ₁₆ ")	2	15276
	«Central type» set	500 mm (1'7 ¹¹ / ₁₆ ")	2	15039
	«Sidefit type» set, without exterior concealed hinges (for left and right-hand use)	650 mm (2'1 ¹⁹ / ₃₂ ")	2	15040

HAWA-Multifold 30/W, sets

		panel	code
	Set for «walk-in cabinet», without exterior concealed hinges, with top track	2	15569
	Set for «walk-in cabinet», without exterior concealed hinges, without top track	2	18286

Each set contains installation instruction.

Profile sets

		mm/inch	code
	Top track and bottom guide channel, alu plain anodized, predrilled, with brush seal	1100 (3'7 ⁵ / ₁₆ ")	15024
		1800 (5'10 ⁵⁵ / ₆₄ ")	15025
		2500 (8'2 ²⁷ / ₆₄ ")	15026
		3500 (11'5 ³¹ / ₆₄ ")	15027
		6000 (19'8 ² / ₃₂ ")	15290

Installation instructions are added to each profile set.

Vertical seal profiles, styrene-butadiene rubber (SBR)

	Concealed hinge, dull nickel finish, 120° (overlay panels)	15059
	Mortising template for cup recesses	14761

Features of the HAWA-Multifold 30-30/W

- Maximum panel weight 30 kg (66 lbs.), panel pair 60 kg (132 lbs.)
- Maximum panel heights 2600 mm (8'6 ²³/₆₄")
- Panel widths 200 – 500 mm (7 ⁷/₈" - 1'7 ¹¹/₁₆") / attached to the side, with guide channel 650 mm (2'1 ¹⁹/₃₂")
- Panel thicknesses 19 – 25 mm (³/₄" - ⁶³/₆₄")
- Vertical groove width 3 – 5 mm (¹/₈" - ¹³/₆₄")
- Vertical adjustment ± 2 mm (⁵/₆₄")

Order specifications

- Number and type of sets
- Number and type of profile sets
- Number of rollers and type of vertical seal profiles
- Number and type of accessories
- Whether with or without mortising template
